

# Built-ins and Storage Walls

The old saying "A place for everything, everything in its place" comes true with modern built-ins and storage walls. They'll make your home more convenient—make housekeeping easier, too!

Fascinating Ideas from  
**Weyerhaeuser Company**

Add Storage Where You Need It...  
Add the Beauty of Wood Paneling...

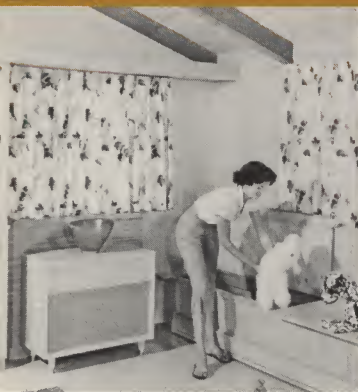

## START YOUR PLANNING RIGHT HERE

● These picture pages show the almost unlimited range of applications for well-planned built-ins and storage walls. Note how in every case, the completed job not only represents added storage space: it is also a real addition to the proud owner's home. In fact, a well-planned built-in can serve as the focal point of a room . . . can set the whole decorative scheme for a room, when you build it with

Weyerhaeuser 4-Square Lumber and Plywood that combines the necessary strength and rigidity with the appearance you want. Imagination—not dollars—is the key to built-ins and storage walls that add beauty as well as convenience. Study the ideas here . . . start planning the storage wall or built-in that will do something wonderful for your home. You'll find it's easily within your budget.

## HOW TO FIND SPACE

More often than not, a built-in or storage wall actually creates additional space because it provides a single central location for things from several places. List what you need to store, then plan your unit where it will be most convenient for the things you'll be using most often!

**Attractive, well-planned built-ins and storage walls will make your home more livable  
...and easier to care for!**

## HOW TO GET MORE STORAGE IN LESS SPACE

Plan spaces just the right size for each group of items. Slip in an extra, very shallow shelf for platters or linens . . . use the doors of your unit for small, lightweight items. You'll be amazed how much you can get into a small space when you plan the space carefully so none of it is wasted.

## HOW TO PLAN AND BUILD

Take your ideas and rough plans in to your Weyerhaeuser 4-Square Lumber Dealer's. He'll help you figure out exactly what you need . . . help you select the 4-Square Lumber or Plywood that will give you the results you want . . . and on big jobs, he'll give you the information you want on building and financing.
